Flotilla 36 Auxiliarist of the Year Bill Bartley, FSO-OP. Presented at our change of watch dinner dance by (from left) Division Commander Pat Feighery, Bill, USCG Captain James Fitton, and our new Flotilla 36 commander, Tom Thayer. Bill was chosen for this honor because he rejuvenated the Operations Department, getting qualified boats and crews on the water to meet our Coast Guard mission

COW, 2009

Tom and Marie being resworn. Meritorious USCG Team Commendation for successful SAR, Auxiliarist of the Year, USCG Commandant's Letter of Commendations for Tony and Don and a belated award for Tom Rutherford for FC

More COW. Color Guard, Jim and Nancy greeting Connie, Staff Officers, Marge Kegan with Chris O'Brien and his wife (Tom O's son), Andrea and the Jaffes, Ron Dillon telling Tom R. and Len how big it was, Gail and Jerry, Marge and Captain Fitton

Knot tying in Boat Crew Class (Left to right, top to bottom) Claude Jodoin and Ted Jutjen, Ralph Krugler and Rob Lambie, Becky Lutjen and Georgr Kozel, Jerry Edelman coaching Laura (Skeets) Friedkin and Alexander Van Mecl

**February, 2009 Meeting
From VFC Tom Thayer**

We do not have a speaker scheduled, as we have some business items to discuss, such as approving our 2009 Budget for Flotilla 3-6. We will be presenting Certificates, beautifully prepared by VFC Marie, to the 2008 Staff Officers.

Marie and I plan on starting on time, keeping things moving along, making it interesting and most importantly, having fun. Please come to the meeting and bring a guest, Thursday, February 5 at 1930. Uniform is Tropical Blue Long, ODU, or appropriate civilian attire.

JANUARY CALENDAR

This section will highlight dates and events in the coming month. For a full listing, see the Calendar. Note: Calendars frequently change, check with event leader to verify

2/1	Bass Pro Shop Boat Show	1000
2/2	BS &S	1900
2/3	Boat Crew	1900
2/4	AUXAPC	1900
2/5	FLOTILLA MEETING	1930
2/6	PA C School Miami	
2/7	Barefoot Mailman	
	VSC Lake Ida, Tropic Bay

Calendar change.
Due to medical reasons the

Valentine's Day party is canceled. We will have a St. Patrick's Day party at the base on Saturday, March 14, 2009.

Once again, it will be bring a dish to pass. No charge to members and their family. You may bring a guest and we ask for a \$5.00 donation per. Everything will be provided by us. I intend to have music for your listening and dancing pleasure. Make plans to spend a fun night with your fellow auxiliary members. Please coordinate the food with me. Call me at 561-865-9761. Let's make 2009 a great year for camaraderie and friendship in Flotilla 3-6.

The Deerfield Beach Founder's Day Parade is going to be on February 14th this year. We are hoping to have a large contingent from Flotilla 3 6 to join with the Flotilla 3 4 and Station Fort Lauderdale in participating in the parade. If you are interested in joining us or for more information please contact me.

[WHO CAN TELL ME WHAT THE OTHER 3 CORNERSTONES ARE?]

Flotilla Commander 3 6

From the Helm

AMERICANISM: As I write this, I have just returned from four days in Orlando doing my job as a Director of the Florida Association of Realtors, the largest trade organization in the State of Florida. You say what does this have to do with Americanism? Well FAR is very much a Pro-American organization supporting Private Property Rights, Home Ownership, Etc.? The Theme of the Saturday night banquet was "Red, White and You" for about 700 people. The highlight was the signing of the National Anthem by Tiffany Colburn. When she finished doing the most beautiful rendition that I have ever heard, with the music, the voice and the flags, there was hardly a dry eye or an unbumped goose bump. So, I would just like to remind everybody, regardless of our political persuasion, that we live in the greatest country on earth. Lots of people would gladly change places with us. So, let us enjoy and protect what we have.

Flotilla 3-6 Change of Watch: Nancy Godden did wonderfully on our Change of Watch. My special thanks to all of the folks that contributed in so many ways. The one follow up comment that I have is that a tribute was planned for the late Torn O'Brien. We invited Tom's son and daughter-in-law, Chris and Cindy O'Brien and they attended and received a Memorial Plaque. I doubt that anybody heard of the many contributions that Torn made to Flotilla 3-6, including Communications Officer and Office Manager. I had the pleasure of having Tom on my vessel for what turned out to be his last patrol. He was in pain, but, he was determined to keep up on his Crew qualification. Torn O'Brien will be missed.

ACTIVITIES: There are numerous workshops, training, classes and activities scheduled. Please read the calendar. Gail does a great job on the Division level and Marie does a great job on the Flotilla level in maintaining the Calendar. Print it out, download it, and copy to your personal calendar, whatever works for you. Try to attend the things that you need to maintain your qualifications or to attain new qualifications. Enough said.

Till next month.

"The achievements of an organization are the results of the combined effort of each individual."

Vince Lombardi

Change is the only constant in life. With that in mind, I hope to continuously improve the format of the General and Staff Meetings. If you have not been attending the meetings or participating in activities, we would love to have you come back and give us a chance to tempt you into becoming a contributing member.

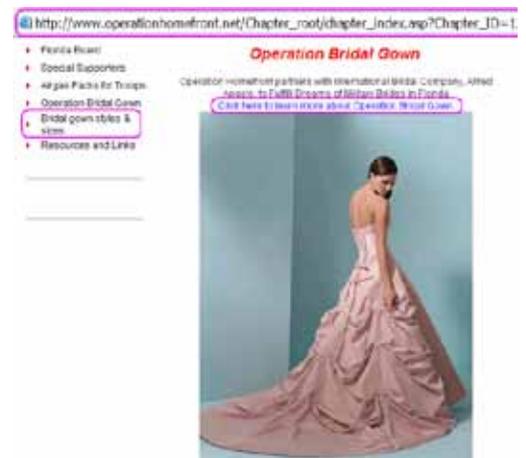

In the spirit of participation, check out the calendar as there are many opportunities. Maybe you want to walk in a parade, try out Vessel Exams, teach a class, stand a radio watch, participate in a safety mission or bake a goodie of some sort. In an effort to reduce our expenses, I would like to get a few volunteers to bring in a treats for our General Monthly Meetings. Every little bit helps. Contact me during the Feb meeting if you can bring something for March. I would like to rotate who brings in a treat, so don't worry that if you sign up for one month, you will be expected to bring in something every month (unless you want to).

“The National Maritime Center processes applications from mariners seeking credentials. The NMC receives approximately 300 applications per week. Every application that is processed has to be reviewed for any existing medical conditions the mariner may have. If there is an existing medical condition the application has to be reviewed by a Physician and a fit for duty determination made prior to issuance of a license.” The National Maritime Center (NMC) is urgently looking for Physicians and Physician Assistants to help in determining "Fit-for-Duty" status of Maritime License Applicants who have some sort of medical pre-condition or existing condition. The NMC scans the records requiring a medical review into a secure system so that currently licensed Auxiliary Physicians and Physician Assistants can review them online in a secure environment and make a fit for duty determination without having to travel

to NMC. This can be done from the home or office and the volunteer can devote as many hours as they can to this need. There is also a Physician onsite at NMC (CAPT Matt Hall) to assist and consult. Contact Tom or myself if you are qualified and able to assist.

It is February and love is in the air. So what is a better time to find out about free wedding gowns? Through a 'chance' encounter, I met the lady chairing the Florida Chapter of Operation HomeFront. We are hoping that a free wedding gown is just the first partnering of Operation HomeFront, the US Coast Guard and the Auxiliary. In the future, perhaps we can get Easter baskets to the children of active service personnel or who wouldn't appreciate a new school back pack. So as we meet and develop friendships with the men and women at the Station, let's find out how we can help both at the Station and in their personal lives. This offer is only valid for Florida military Brides, a bride marrying a Florida military man or for renewal of vows. In order to receive a gown, the bride must have either her own or future husbands military identification number. All information is kept confidential.

Bill Bartley Operations
Fso-op@cgauxboca.org

From an operation perspective on of the most important tools an auxiliarist can use is the Patrol Order Management Systems (POMS). Coxswains, facility owners, and crew can use POMS in many ways.

Coxswains and facility owners can use POMS to request patrols for the Order Issuing Authority (OIA), print approved orders, and complete post mission paperwork for hours and reimbursement of fuel and other approved expenses.

Crew members can use POMS to:

1. Find Coxswain contact information for a requested patrol that has been authorized by the OIA.
2. Search for a patrol on a specific day to be a part of.
3. View facilities in need of crew members or advertising room for additional crew members.

POMS users don't forget:

- 1) Always tab out of fields
- 2) Look at your entries in numeric fields- Fuel costs, hours, other expenses. Recently some on-line entries had not noticed the decimal point- that made the fuel cost pennies not dollars, another only had .4 hours, not 4 hours on the mission. These will not be processed until corrected.
- 3) You will need (as soon as you can) a digital picture of your facility to upload to POMS so the Coast Guard can see the size and capability of your facility. This upload is done when requesting orders. The picture should have the USCGAUX boards and mission flag in the picture, POMS will tell you how to name the photo for upload when prompted.

As always, if anyone has any questions, comments or concerns or needs assistance or

more training, please do not hesitate to contact me.

Public Education

Fso-pe@cgauxboca.org

Public Education –

There is still time to join the Winter BS & S class. If you know someone who wants to take a boating course they can still sign up for this class as we have only had the first session. If anyone is interested they should just come to the class on Feb 2nd and sign up. We

Currently have 5 students. I have class schedules available for anyone who wants to hand them out. Please let me know how many you want and I will leave them in the office for you. Please give me a week’s lead time if possible.

Schedule of Public Education Classes

Boating Skills & Seamanship – Classes Jan 26 thru Mar 16 Monday evenings 7-9PM

About Boating Safety - March 28 9AM thru 5PM- Bring your own lunch

Weekend Navigator- Full class- April & May- dates to be determined

Boating Skills & Seamanship – Registration June 8- Classes June 15 thru July 27 Monday evenings from 7-9PM

About Boating Safety – July 25 9AM to 5PM – Bring your own lunch

About Boating Safety – Oct 3 9AM to 5PM – Bring your own lunch

About Boating Safety – Nov 14 9AM to 5PM – Bring your own lunch

GPS April 4 9AM to 3 PM

GPS December 5 9AM to 3 PM

AUXOP Training
And Publications

Member Training, AUXOP

We currently have two classes active. On Tuesday evenings we have the **Boat Crew** class. This class is preparatory work for those interested in becoming Crew qualified.

On Wednesday evenings we have the Administrative Procedures Course (APC). This course is for those interested in the details of how our organization is run

Anyone interested in joining either of these classes with the understanding that they will have some catching up to do, please contact me.

We still have some instructor slots open in each of these classes

Jerry Edelman
Personal Visitor
Fso-pv@cgauxboco.org

Hi, I’m Jerry Edelman and I’m your PV officer this year. . In the past couple of years the flotilla has been having a hard time getting the information out to the public about our classes. One way we can do this is through the PV (personal visitor) program. I am looking for more people to help me with this. If you are a VE you are most of the way there to become a PV. The information is the same and it’s an open book test. Once you pass the test all you do is go to your favorite place of business or hangout and leave information there about our classes and boating safety.

Martin Jaffe
Vessel Examination
Fso-ve@cgauxboca.org

Congratulations to all the VE'S. I understand that there were more than 400 VSC'S done in 2008. Great work! Let us try to do even better in 2009.

I am happy to report that it was business as usual at Lake Ida on 03 Jan, with over a dozen VSC'S. 17 Jan, was a very cold and windy day but we managed to do at least 5 VSC'S.

There will be VSC'S 07 Feb, at Tropic Bay, and Lake Ida also. 17Feb will be at Silver Palm.

On Saturday 14 Feb. there will be a one day Vessel Examiner's course 0900 to 1600 hours with the test TBA.

Let us remember the three 'P'S' of the importance of the VSC

- Protection of the boater and his passengers.
- Protection of other boaters and their passengers
- Protection of the environment

William Sernaker for AUXSEA, Fred Gless Instructor certificate

Leonard Schwartz
Fso-is@cgauxboca.org
Information Systems

Honestly, I really need to have all members submit your time forms to me in the ELECTRONIC VERSIONS [Email format].

It makes things a lot more workable as otherwise I have to convert it to the ELECTRONIC VERSION so that it can be entered into Auxdata.

If some people do not have a computer, then ask a friend to help you out or use one at the public library. I only pick up forms at the base twice a month, but I work on the forms every week.

The delay in my picking up the forms and the data entry can put you past the 30 day time limit that is set up in the D7 policy on entry of reports. If you need help in getting started with this, please contact me

I am sorry for this, but that is the rule and I have to work with it. Your help is needed. Thank you.

Richard Tepper Public Affairs and AUXCOM certificates

Mark Thompson
Aids to Navigation
Fso-an@cgauxboca.org

Thanks to all the crew and coxswains for checking the ATONs out while on patrol. Remember, you do not have to be on an official “ATON” patrol in order to check the aids.

Please contact FSO-OP if you are interested in doing an ATON patrol. Thank you!!

The week 2 version of the Local Notice to Mariners has the following items of interest for our AOR:

Aid 47113 Delray Beach Shoal Buoy being reported ON STATION. This was reported as a problem and fixed in this version of the LNM.

Listed as a temporary change:

Light list number 772.1 – Boca Raton Inlet North Jetty Light 2 status is listed as DISCONTINUED. This status was updated week 29 of 2008.

Shoaling was reported in the vicinity of Hillsboro River Light 68 (Light list number 47190). This was reported week 31 of 2008.

Andrea Rutherford
Personnel Services
Andrea Rutherford
Personnel Services

First, I’d like to thank Marc Brody for his transition of PS duties to me in December. He did an impressive job in 2008, and I wish him well in his new office for 2009.

It’s good to see all of you snowbirds back! Please remember to read the Log carefully for all the announcements and trainings to keep your qualifications current.

Congratulations to our four new members sworn in at the January meeting: **Lora Friedkin, Alex Van Mecl, and Ted and Becky Lutjen.** I hope you find satisfaction and many personal rewards in your participation.

Three applicants from 2008, **Jeff and Chris Rogers and Dan Wilwerding,** have just received their membership numbers and are able to participate (as trainees) in flotilla activities and training.

I held the first New Member orientation for 2009 in January and am pleased to introduce two prospective members.

Herman Feldman

(left) was born and raised in Brooklyn and Queens, NY, and started his

marine experience as a Sea Scout and then as a Mate and Committeeman. Although he enlisted the Army, he’s been interested in the CG and CGAUX since he was 16 years old, when he appreciated their presence on the water. After the Army, he was with NY State Police as an Investigator for 37+ years. With a degree in wildlife management, he fell in love with the Florida outdoors in the 50’s, and after his retirement, he convinced his wife to move to Boca. He has resumed his involvement with the Sea Scouts in Broward County as a Unit Commissioner, and he has also taken on cooking responsibilities. As a frustrated chef, after retirement, he completed the NY Restaurant School in NYC. He and Myra are parents of four and grandparents of four, all living on the East or West coast. Welcome, Herman!

Rob Lambie is a long-time Delray resident and retired IBM programmer and engineer. Born in Charleston, WV, Rob moved to Hollywood, FL, as a child and graduated from FAU after leaving the army. After 30+ years at IBM, Rob and his wife, Pam, are now grandparents and owners of “Moon Shadow,” a 45’ Morgan sailboat. Besides

cruising the Abacos and Exumas, Rob bicycles A1A.

Rob completed our BS&S and ACN classes in 1996 and now wants to join the Auxiliary to participate in the organization that taught him so much. It was also a “subtle” suggestion from Marie, a friend and former colleague. Welcome, Rob!

And finally, it is my pleasure to welcome back **Sam Stephenson, IV**, whom we once referred to as

“Young Sam.” Many of you know his father, also Sam Stephenson, who was a long-time member of the flotilla while he was on the faculty at FAU. Many of us benefited from Sam’s able classroom expertise. And now young Sam has resumed his active membership. He has been an Auxiliary member for many years, but has been stationed in Galveston, Texas, as Commandant of Cadets at Texas A&M University’s Maritime school, one of five such schools in the country. He was the Master of the Texas Clipper II, Texas A&M’s 394-foot floating classroom. After the Texas Clipper II, he was captain of the 524’ USNS Sirius for Operation Katrina Relief. Sam has a long career in the US Merchant Marine, as well as a law degree from U of Miami. Last year, Sam and Kirsten and their four young children moved back to Boca, and he is currently a Port Everglades pilot. He hopes to participate in the many activities in the Auxiliary. Welcome back, Sam!

Please introduce yourselves to these new members and give them a warm 3-6 welcome at our meetings and activities.

Alex Van Mecl, Laura (Skeets) Friedkin, Red and Becky Lutjen are sworn in

Richard E Tepper
Public Affairs Officer
Fso-PA@cgauxboca.org

Over and Out. Over and Out. We've heard that expression hundreds of times. When John Wayne stormed the Sands of Iwo Jima he dramatically spoke into his walkie talkie and just before slamming it to the ground he uttered those infamous words "Over and out".

All of your VHF Radio communications should be precise, accurate, discernible, brief and informative. When time is of the essence, calculate your message before transmitting it, this will allow your message to be better understood and reacted upon in a more rapid and productive fashion. Don't forget, your message might mean the difference between life and death to you and your crew or those who require and depend on your assistance at this time. First off be calm and speak in a composed manner. Your behavior at this time is critical and will dictate the measure and context, in which it's received and acted upon. If the prevailing conditions dictate that your current duties do not allow the luxury of doing the radio transmissions make sure the appointed radio person is trained and capable. Remember, when all is said and done you are the person who is ultimately responsible and accountable for your radio person's actions. With all that said, and yes, I understand it's easier said than done but believe me it must be done. Practice this in your Member Training classes, upon your vessels and critique your efforts. Practice, Practice and more Practice is the answer. There are many publications, manuals and online Coast Guard approved courses that will greatly aid you to improve and hone your skills, in this endeavor. These materials are easily found by the use of Google or by requesting them from your FSO-MT.

Once you understand the proper communicating procedures you will appreciate how confusing the use of the wrong "Proword" can be. "Over and out" is really confusing since "Over" means your awaiting response to your last transmission and "Out" means at this time you have completed

your transmission and do not expect any farther response from it, and you're standing by on channel. Don't be intimidated by the microphone, it will only do or say what you want it to do or say. ***Over and outOh no no! Out***
